

## **Ezekiel 1**

*Music: Luke Wood & Caleb Culver, Lyrics: Luke Wood*

Am                    G7                    Dm                    F  
You ride upon the cherubim, You ride upon the wings of the wind  
You make the clouds Your chariot, You make Your angels flames of fire

Am                    G7                    Dm                    F  
Upon a throne of glory You ride  
Its wheels are a burning fire  
In Your glory and Your majesty ride  
Your eyes are a burning fire

Am                    C                    F                    Am                    C                    G  
You're enthroned above the cherubim, the seraphim cry, "holy, holy is the Lord"

Am                    G7                    Dm                    F  
And I heard as it were in the sound of their wings like many waters  
Like the voice of God Almighty above when the heavens thunder  
And I saw as it were a wheel within a wheel on the earth below  
And wherever the Spirit wants to go that's where they go
