

Heart After You

Luke Wood

I want to stand in Your counsel to sit at Your table

And speak to You face to face as a friend

I want to stand in Your fire wherever Your eyes fall

May You find me faithful to Your heart

Let me be found...

With a heart after You

May Your eyes find this heart loyal to You

May You be all that's on my mind all of the time

Let my heart be torn in two until your will is mine

Dearly Beloved of my soul
