Hosea Song

Music and Lyrics: Luke Wood

E F#m E/G# A
I remember when I led you out of Egypt My love
Through the dry and desert place we walked My love
How could I forget the kindness of your youth My love?
I remember the covenant we made My love
E E/G# A F#m
Though you forget Me I will not forget you
Though you forget Me I will yet allure you

F#m B
I said long ago that I would hedge up Your way
with those thorns on every side and now you wonder why you feel the pain?
I am building all around you a wall of resistance
But it's unto your redemption and it comes through your repentance

E F#m
We're going back to the wilderness where it all began,
E/G# A
Back to the place where we first met
Back to the wilderness where it all began
this time it ends in the garden of eden

I remember when I led you out of bondage My love
Wonderful things I did in your sight My love
My own special treasure and on you I set My love
The more you were called the more you went astray
Though you forget Me I will not forget you
Though you forget Me I will yet allure you

As in the days of your youth once again you will sing
Like when I brought You out of Egypt and carried you on eagles wings
In the latter days you will fear the Lord and tremble at My goodness
Who is this leaning on her beloved coming out of the wilderness?

E F#m
We're going back to the wilderness where it all began,
E/G# A
Back to the place where we first met
Back to the wilderness where it all began
this time it ends in the garden of eden
And the dry and desert place will blossom like a rose,
and that valley of shame will be a door of hope
