You give life to the dead and call those things which don't exist as though they did

G C
Jesus, You're my only hope, You're the only cure, You hold the words of life that I need
G C
I'm fragile and I'm weak... I waiting for Your strength to carry me

I am Yours and You are mine, let us run together
I am Yours and You are mine we will live forever
On the Last Day You will raise me up
